Krunal Janardan Chaudhari

FullStack Developer (MERN)

Surat, Gujarat, India | +91 63519 24667 | chaudharikrunal0223@gmail.com
krunalchaudhari.dev | LinkedIn | GitHub

Summary

Full Stack Developer with professional experience building and maintaining MERN applications, including HRMS and CRM products. Works across React, Node.js, Express, and MongoDB, with additional backend experience in PHP/Laravel and MySQL. Currently pursuing an MCA (9.26 CGPA) while shipping features on production web applications.

Technical Skills

- **Languages:** JavaScript (ES6+), Java, Python, C++, PHP, SQL, HTML5, CSS3
- **Frontend:** React.js, React Router, Tailwind CSS, Bootstrap, Responsive Web Design
- **Backend:** Node.js, Express.js, Laravel, REST API development, JWT authentication
- **Databases:** MongoDB, MySQL, Supabase
- **Tools:** Git, GitHub, Postman, npm, VS Code, Stripe API

Experience

Bright Paper **Aug 2026 – Present**
Full Stack Developer (MERN)

- Develop and maintain web applications and internal tools that support day-to-day business workflows.
- Build frontend and backend features, integrate APIs, and fix production issues as per team needs.

The Hidden Ideas Infotech **Mar 2026 – Aug 2026**
Full Stack Developer (MERN)

- Built end-to-end features for HRMS and C2C CRM products using React, Node.js, Express, and MongoDB.
- Developed RESTful APIs for authentication, CRUD workflows, and data validation across frontend and backend.
- Designed MongoDB schemas and queries for core modules, and resolved production bugs in live workflows.

Trueline Solutions **Feb 2026 – Mar 2026**
Full Stack Developer (MERN), Trainee

- Implemented new features and fixed bugs on a live client website (Praful Pansheria's official site) using the MERN stack.
- Improved page performance and cross-device responsiveness, refining UI components based on client feedback.

Projects

AttendIQ – Smart Attendance & Engagement System | *Next.js* attendiqs.vercel.app

- Built a hackathon-winning attendance platform for BMU with separate Admin, Teacher, and Student portals.
- Verified attendance via face recognition and campus geofencing, with engagement analytics and academic-risk alerts.

Seloria – E-commerce Website | *React.js, Tailwind CSS* getseloria.com

- Developed an e-commerce platform with product management, authentication, cart, and order management.
- Built a responsive, component-driven UI focused on performance and reusable state handling.

Food Delivery Management System | *React, Node.js, Express, MongoDB, Stripe*

- Built a full-stack ordering platform with menu browsing, cart, checkout, and order management.
- Integrated the Stripe payment gateway and built REST APIs for users, menus, and orders.
